Arctic Air® Commercial Single Door Reach-in Refrigerators & Freezers.

Refrigerator Model R22CW **Freezer Model F22CW**

Both are certified to ANSI/NSF Standard 7, but usually hundreds of dollars less expensive than competitive brands made of stainless.

ARCTIC AIR

Actually, white is a downright beautiful color when you know it means you usually save 20 to 30% compared to stainless.

No, it's not stainless, it's white textured steel. Less expensive. No fingerprints.

Tested and certified to ANSI/NSF Standard 7, Food Service Refrigerators and Storage Freezers. Includes NSF Certified thermometer.

Two and a half inches of wall insulation make these units some of the most energy-efficient in the industry. In fact, compared to a well-known competitive brand, an Arctic Air Freezer saves you $302 a year in energy costs, and the refrigerator saves you $149 at .0867/KWH. (See back page for more details.)

Field reversible, lockable door. Easy to convert from right to left hand opening. All units shipped with right hand opening.

(see next page)

(see next page)

With Pan Slide kit 216423801, you can replace half or, with two kits, all shelves in either refrigerator or freezer with racks that hold 8, 18" x 26" standard sheet pans. One kit contains two racks and four clips which, when installed, will hold 8, 18" x 26" standard sheet pans. (See back page.)

Efficient, warm-wall condenser keeps the cabinet exterior dry without using electric heaters.

Quiet, bottom-mounted compressor. Freezer 1/3 HP, refrigerator 1/4 HP...plenty of capacity for all kinds of applications.

Environmentally friendly 134A refrigerant.

TO UNDERSTAND WHY ARCTIC AIR® SELLS FOR LESS, START WITH THE FINISH. While Arctic Air refrigerators and freezers look somewhat like domestic units because they're white, they are true commercial products in every way. They have been tested and certified to ANSI/NSF Standard 7. They have the same features, quality and warranties as the big names in the business,

Convenient, adjustable temperature control.

Heavy-duty, stainless steel air duct, fan motor and evaporator cover prevents damage to vital parts.

Bright, interior light goes on when door opens.

Field reversible, lockable door. Easy to convert from right to left hand opening. All units shipped with right hand opening.

Heavy-gauge stainless door edge protector and handle are easy to clean, protect from scuffing and scratching.

Door has spring-loaded door closer and magnetic gasket for positive seal.

Three adjustable, epoxy-coated shelves and bottom shelf trivet are standard. Shelves will hold a full sheet pan, or loads up to 300 pounds. (See back page for extra shelves.)

Fully-contained, hermetically-sealed refrigeration system. No additional plumbing needed.

White, poly-coated steel interior is bright, durable, and easy to clean.

Frost Free.

Freezer compressor has oil cooler to improve operation in high ambient temperature conditions and extend compressor life.

Four casters, two lockable, just like the more expensive brands.

Made in the U.S.A. *and comes with a full warranty: 5 years on compressor, 1 year parts and labor. 6000 service technicians nationwide.*

and they compete with any other top-name, NSF Certified product. But they're less expensive because they're white, not stainless. At a savings of 20 to 30%, do you think you could get over that?

ARCTIC AIR®

Commercial Freezers & Refrigerators

Specifications

REFRIGERATOR MODEL R22CW

Cabinet	22 cu. ft.
External Dimensions	
Height	70"
Width	32"
Height w/wheels	75"
Depth	29.3"
Depth w/ door open 90°	59.8"
Internal Dimensions	
Height	52" (from bottom shelf)
Width	26.75"
Depth	20.5" (upper area 19")
Gross Weight	282 lbs
Compressor	1/4 hp
Refrigerant	134A

NSF Certified
115 Volt
15 Amp recommended circuit
4 Amps cool cycle, 5.5 defrost
Grounded outlet required,
GFI circuit not allowable

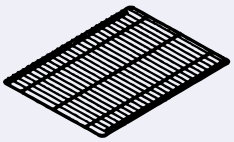
Power cord	9 ft.
Watts @ 70°F	158
Watts @ 90°F	165
Ave. Annual Operating Cost @.0867/kwh	$45
Energy BTU/hr	780
Warranty	5 years compressor
	1 year parts
	1 year labor

FREEZER MODEL F22CW

Cabinet	22 cu. ft.
External Dimensions	
Height	70"
Width	32"
Height w/wheels	75"
Depth	29.3"
Depth w/ door open 90°	59.8"
Internal Dimensions	
Height	52" (from bottom shelf)
Width	26.75"
Depth	20.5" (upper area 19")
Gross Weight	287 lbs
Compressor	1/3 hp
Refrigerant	134A

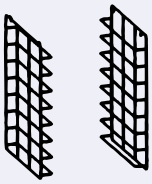
NSF Certified
115 Volt
15 Amp recommended circuit
4 Amps cool cycle, 5.5 defrost
Grounded outlet required,
GFI circuit not allowable

Power cord	9 ft.
Watts @ 70°F	158
Watts @ 90°F	165
Ave. Annual Operating Cost @.0867/kwh	$76
Energy BTU/hr	1325
Warranty	5 years compressor
	1 year parts
	1 year labor



SMALL SHELF KIT #216642000
18.5" x 26.25" Shelf & mounting clips. For upper area near evaporator cover.

LARGE SHELF KIT #216423800
20" x 26.25" Shelf & mounting clips. For main body of cabinet.



PAN SLIDE KIT #216423801
Racks hang from clips on existing pilasters. Kit contains two racks and four clips. Accommodates up to eight standard 18" x 26" sheet pans at 2.5" spacing. Use one or two kits per unit.

"At our price, you can have it in any color you want, as long as it's white."
